### Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Kolodka on Sept. 14, 2004.

Please amend the claims as follows:

1. (Currently Amended) Apparatus, comprising:

an input circuit for receiving a video signal indicative of playback of a first recorded medium;

a detection circuit for detecting a horizontal synchronization signal component of said video signal, said detection circuit including a horizontal lock detector for determining whether said horizontal synchronization signal is received at appropriate intervals, said horizontal lock detector producing an error signal indicative of the absence of a valid horizontal synchronization signal, said detection circuit including an error counter for counting the number of horizontal synchronization signal errors during a predefined time period and indicating whether a threshold level of horizontal synchronization signal errors has been exceeded; and

a control circuit which selectively controls recording of video information from said video signal responsive to detecting said horizontal synchronizing signal.

Art Unit: 2626

4. (Original) The apparatus of claim [3] 1, wherein said horizontal lock detector is responsive to a clocking signal.

### **Reasons for Allowance**

Claims 1 and 4-8 are allowed for the reason the prior art does not teach or suggest, "... said detection circuit including an error counter for counting the number of horizontal synchronization signal errors during a predefined time period and indicating whether a threshold level of horizontal synchronization signal errors has been exceeded..."

Claims 9-21 were previously indicated as being allowed and are allowed for the reasons provided in the last communication.
